Assignar + sage Intacct INTEGRATION

Improve efficiencies in the field and office with Assignar's cloud-based scheduling and time-tracking solution that seamlessly integrates with Sage Intacct Construction.

BETTER TOGETHER

HOW DOES IT WORK?

Assignar pulls project data from Sage Intacct Construction, so you can schedule work orders and track time in the field against them. Assignar pushes that field data back automatically, so you don't have to bother with importing and exporting files.

WHAT DO YOU GET OUT OF IT?

Save time & labor completing timesensitive tasks Reduce double-entry and unnecessary manual entry

Communicate more effectively between the accounting office and the field

Make the best in-the-field decisions with immediate access to job and work order data, and give accounting peace of mind with automatic up-to-date cost data from the field.
